Building a Winning Team

The key to effective and harmonious teams, durable results and creative problem solving is trust. Trust forges cohesive teams where members work more productively together, supporting each other to meet deadlines and achieve the common goal. This program provides you and your team members with the skills and tools for communicating more effectively through mutual understanding and trust, in any type of business or social situation. The program will provide:

- **Insight into how your team members perceive your communication and behavioural style**
- **Understanding into the specific contributions and motivations of each team members, and the factors that will foster cooperation**
- **Skills to build trust within teams and to project empathy**
- **Capacity to deal effectively with relationship tensions and situations involving change, as a team**
- **Understanding of the strategies that lead to individual achievement and team success**
- **The tools and skills to overcome common team failures such as missed deadlines, conflict, stress and inefficiency.**

The Persuasive Communication program has been successfully used by over one million people worldwide and has been proven over the past 20 years to be one of the world's most effective communication skills training programs. It will equip you and your team with the people and communication skills that are vital to success in both your work and personal lives.

These new skills are easy to learn and immediately applicable to real-life work challenges. You will receive feedback on how team members perceive your natural communication style, ability to project empathy, and level of interpersonal flexibility. We help you to understand your strengths in trust building, and more importantly, provide the skills to minimise or eliminate any weaknesses.

Key Features

- **360 Degree Feedback.** You select five team members who know you well to complete a profile on how they perceive you as a communicator. This provides powerful self-knowledge and a platform to develop your skills during the program.
- **Unique Measures.** Unlike other tools, Persona's Personal Communicator provides valuable feedback on your empathy and flexibility levels which are key determinants of trust building.
- **Case Study Feature.** A special feature of the Persona program is that you apply your learnings immediately to a real-life situation. We will coach you, and help you to develop a practical plan for communicating more effectively with your chosen person.
- **Actionable.** Emphasis is on acquiring immediately useable, practical skills rather than learning theory.
- **Profiling Tools.** You take away tools that allow you to profile anyone you deal with and understand their needs.
- **Useful Take Home Materials.** Reports and Program materials provide you with complete feedback and information that you can refer to after the workshop.

CASE STUDY: Samsung Data Systems, Korea

- ▶ **Situation:** Samsung Data Systems, Korea, recognised the need to maintain and improve their competitiveness and productivity to sustain growth in the aggressive and innovative market of electronics manufacturing.
- ▶ **Course of Action:** Samsung engaged Persona's Korean partner to develop a program which included Persuading and Influencing Others to show managers how to coordinate more effectively in their workplaces.
- ▶ **Results:** Since implementing the Persona methodologies, Samsung Korea has been able to employ and maintain the highest percentage of internationally certified employees (89%).
